

PINK drops

15 ml 24 pcs

Hyaluronic acid and Cornflower extract (*Centaurea cyanus*) eye drops, also indicated in case of dry and irritated eyes.

Product designed to help in case of eye dryness or reduced lubrication, due to hormonal modifications caused by special conditions (menstruation period, pregnancy, menopause, oral contraceptives).

Product compatible with homeopathic remedies. The product should be used within 90 days after the first opening. Formulation adjusted to be close to the physiologic pH of the eye (pH 7.2). Does not contain Benzalkonium chloride, Chlorexidine, Thimerosal. Compatible with all types of contact lenses. Sterile Medical device.

PINK spray

10 ml 18 pcs

Hyaluronic acid and Liposomes eye spray, ultra eye moisturizer and intense hydration.

Ideal in case of eye dryness or reduced lubrication, due to hormonal modifications caused by special conditions (menstruation period, pregnancy, menopause, oral contraceptives).

Make-up friendly. Product compatible with homeopathic remedies. The product should be used within 90 days after the first opening. Formulation adjusted to be close to the physiologic pH of the eye (pH 7.2). Does not contain Benzalkonium chloride, Chlorexidine, Thimerosal. Compatible with all types of contact lenses. Sterile Medical device.

Mono PINK

360 ml 12 pcs

All in one solution for the complete maintenance of any type of contact lens, including single use lens. Thanks to its delicate and highly biocompatible formulation, containing Hyaluronic acid (Sodium hyaluronate), it is also suitable for sensitive eyes. Product designed for female contact lens wearers, as thanks to its formulation, may help in case of eye dryness or reduced lubrication and a consequent discomfort, due to hormonal modifications caused by special conditions (menstruation period, pregnancy, menopause, oral contraceptives).

Product compatible with homeopathic remedies. The product should be used within 90 days after the first opening. Formulation adjusted to be close to the physiologic pH of the eye (pH 7.2). Does not contain Benzalkonium chloride, Chlorexidine, Thimerosal. Compatible with all types of contact lenses. Sterile Medical device.
