

SODYAL X

10 ml 18 pz

Preservative free lubricant ophthalmic solution, with 0,10% cross-linked Hyaluronic Acid, designed to obtain additional viscoelasticity and stability from the macro-molecule, ensuring an improved hydration and a prolonged stay on the ocular surface. Symptomatic treatment of the dry eye syndrome. Suitable for all types of eye dryness caused by both Hypolacrimia and tear film excessive evaporation. Corneal protection as a tear substitute in case of ocular trauma (as ophthalmic diagnostic and surgical procedures); Lubricates and hydrates the eyes (also in case of intensive use of contact lenses). Product compatible with homeopathic remedies. The product should be used within 60 days after the first opening. Formulation adjusted to be close to the physiologic pH of the eye (pH 7.2). Preservative free. Compatible with all types of contact lenses. Sterile Medical device.

SODYAL PLUS

10 ml 18 pz

0.3% Hyaluronic acid (Sodium hyaluronate) and Aloe vera gel (Aloe barbadensis) eye drops, also indicated in case of dry and irritated eyes. Lubricates and hydrates dry and red eyes, stabilizes and recover tear film. Ideal also in case of eye dryness; insufficient tear production; intensive use of contact lens; eye discomfort in closed, smoky, air conditioned environments; dryness or foreign body sensation (FBS). Product compatible with homeopathic remedies. The product should be used within 90 days after the first opening. Formulation adjusted to be close to the physiologic pH of the eye (pH 7.2). Does not contain Benzalkonium chloride, Chlorexidine, Thimerosal. Compatible with all types of contact lenses. Sterile Medical device.

SODYAL protect

10 ml 18 pz

0.15% Hyaluronic acid (Sodium hyaluronate), fluid extract of Witch hazel (Hamamelis virginiana) and Ginkgo biloba eye drops, with protective, decongesting and hydrating action. Lubricates and hydrates dry and red eyes, stabilizes and recover tear film. Ideal also in case of eye dryness; insufficient tear production; intensive use of contact lens; eye discomfort in closed, smoky, air conditioned environments; dryness or foreign body sensation (FBS). Product compatible with homeopathic remedies. The product should be used within 90 days after the first opening. Formulation adjusted to be close to the physiologic pH of the eye (pH 7.2). Does not contain Benzalkonium chloride, Chlorexidine, Thimerosal. Compatible with all types of contact lenses. Sterile Medical device.

SODYAL Unica

50, 360 ml 12 pz

All in one solution for the complete maintenance of any type of contact lens, including single use lens. Thanks to its innovative formulation, containing Hyaluronic acid (Sodium hyaluronate), it is also suitable for sensitive eyes. Disinfects, stores, cleansing, lubricates and moisturizes, rinses contact lens and helps to remove protein deposits from its surfaces. Ideal also in case of sensitive eyes. Product compatible with homeopathic remedies. The product should be used within 90 days after the first opening. Formulation adjusted to be close to the physiologic pH of the eye (pH 7.2). Does not contain Benzalkonium chloride, Chlorexidine, Thimerosal. Compatible with all types of contact lenses. Sterile Medical device.
